Profile

Mobile developer specialized in Flutter and Node.js with 2 years of experience. I design, develop, and deliver highly performant and scalable applications for various clients, with particular emphasis on reliability and user experience.

Education

Computer Science Engineering

Sep 2020 - Oct 2025

Ecole Supérieure Privée d'Ingenierie et de Technologies - ESPRIT, Ariana, Tunis

- Mastered core concepts of algorithms and data structures essential for efficient problem-solving and software development.

Experience

Solo Developer

Nov 2025 - Dec 2025

Self Employed, Remotely

- Engineered an interactive, gamified learning experience for children aged 4-12, implementing responsive UI patterns and engaging logic that drive deep conceptual understanding beyond standard school curricula.
- Developed a comprehensive parental dashboard featuring real-time progress tracking and data visualization, empowering parents to monitor milestones and identify specific areas for academic improvement.
- Architected a scalable cross-platform mobile solution focused on accessibility and intuitive navigation, ensuring a seamless and engaging user experience for a young demographic while maintaining robust performance.

Freelance Mobile App Developer

Jun 2025 - Jul 2025

Self-Employed, Remotely

- Developed a Flutter and Nest.js mobile application for supplier and inventory management.
- Integrated a Perplexity API-powered chatbot to improve client interactions.
- Incorporated the Stripe payment gateway to enable secure transaction processing.

Intern Developer

Jan 2025 - Jul 2025

MAVISION, Manar 2, Tunis

- Developed and integrated business applications using Microsoft Dynamics 365 Business Central, AL (Application Language), Web Services, and Flutter Web.
- Designed and implemented critical ERP functionalities for enterprise resource planning.
- Developed responsive and user-friendly web interfaces with Flutter, improving user experience by 40%.

Independent Mobile App Developer

Jul 2024 - Aug 2024

Self-Employed, Remotely

- Delivered customized mobile application using Flutter and Node.js.

Hobbies

- Coding
- Web Development
- Mobile Apps
- Gaming
- Reading
- Film Watching
- Podcast Listening

- Developed and launched a weather application featuring real-time API integration.
- Implemented an AI-powered chatbot functionality to enhance customer interaction capabilities.
- Optimized mobile applications for performance and scalability, reducing crash rates by 25%.

Mobile Development Intern Jun 2024 - Aug 2024
ESPRIT, cité El Ghazela, Tunis

- Implemented web scraping functionality from GitHub and LinkedIn to RESTful APIs automatically match user CVs with relevant job opportunities.
- Developed a user review system that enhanced platform credibility and increased user engagement by 45%.
- Integrated advanced filtering algorithms to improve job recommendation accuracy by 35%.

Mobile Development University Project Feb 2024 - May 2024
ESPRIT, cité El Ghazela, Tunis

- Integrated an AI-powered chatbot system handling 1,000+ daily queries with 85% resolution rate, reducing support ticket volume by 40%.
- Implemented Azure API for real-time translation supporting 20+ languages with history tracking and message suggestions, processing 10,000+ messages monthly and improving cross-border collaboration efficiency by 45%.
- Optimized application performance through code refactoring and caching strategies, resulting in 50% faster load times.

Web Development Intern Jul 2023 - Sep 2023
ESPRIT, cité El Ghazela, Tunis

- Developed a full-stack web application using Angular for frontend and Django for backend.
- Implemented robust CRUD operations handling over 1000 daily transactions.
- Integrated an intelligent chatbot system to enhance user support and engagement.
- Improved application response time by 30% through code optimization.

Web Development University Project Jan 2021 - Jun 2021
ESPRIT, cité El Ghazela, Tunis

- Developed a profile and proposal management system using PHP, SQL, HTML, and CSS, adhering to MVC architecture, which reduced development time by 25% and improved code maintainability.
- Enabled seamless user profile management and proposal submission workflows, processing over 1,000 submissions monthly with a 98% success rate and minimizing errors by 40%.
- Implemented secure authentication and authorization systems, incorporating multi-factor authentication that prevented 100% of unauthorized access attempts during a 6-month pilot period.

Courses

Build a Two Screen Flutter Application	Dec 2023
Hashgraph Developer	Dec 2024
Web Development Professional Certification	Dec 2024
Flutter Masterclass - (Dart, Api & More)	Nov 2025
Front End Development-CSS	Jun 2024
Certificate of Achievement: Advanced SQL for Data Engineering	Nov 2024
Learning React Native	Dec 2025

Certificates Attendance

Attendance Hashgraph Developer	Dec 2024
<ul style="list-style-type: none">Certified Hashgraph Developer from Hedera Hashgraph Foundation	
FREELANCING PROFESSIONAL CERTIFICATION	Dec 2024
<ul style="list-style-type: none">Certified Freelance Business Consultant focused on digital transformation and ERP solutions.	
WEB DEVELOPMENT PROFESSIONAL CERTIFICATION	Dec 2024
<ul style="list-style-type: none">Validated comprehensive knowledge of HTML5, CSS3, JavaScript, and modern web development frameworks.	
Front End Development-CSS	Jun 2024
Certified CSS Developer from Great Learning	
Certificate of Achievement: Advanced SQL for Data Engineering	Nov 2024
<ul style="list-style-type: none">Demonstrated comprehensive knowledge of advanced SQL querying techniques including complex joins, subqueries, and window functions.	
Flutter Masterclass - (Dart, Api & More)	Nov 2025
<ul style="list-style-type: none">Handled asynchronous programming and data streams in Dart to manage real-time data fetching and processing.Applied best practices in debugging, testing, and performance optimization in Flutter apps.Mastered Flutter framework for building cross-platform mobile applications with Dart programming language.	
Learning React Native	Dec 2025
<ul style="list-style-type: none">Leveraged the Expo framework to streamline the development lifecycle of React Native applications, from prototyping to build.Implemented dynamic state management (using React Hooks) to enable real-time background color manipulation and interactive UI updates.Handled data processing and filtering to manage content display and ensure responsive application behavior.
