

PROFILE

Mobile and Full-stack Developer specializing in Flutter and Node.js with 2 years of experience. I design, develop, and deliver high-performance and scalable applications for various clients, with a strong focus on reliability and user experience.

PROFESSIONAL EXPERIENCE

Flutter Developer | Extra Glass S.A.R.L

May 2026 – June 2026

- Designed and developed a full-stack MES system (Flutter) dedicated to real-time production tracking and complex order management.
- Architected and integrated a high-performance backend (FastAPI / SQLAlchemy) with strict environment isolation (Dev/Prod) and push notifications (FCM).
- Used Microsoft Excel for applying generalization formulas and Microsoft Word for formatting and validating technical tables.

Flutter Developer | Tick8ing, Tunis

February 2026 – March 2026

- Developed and enhanced a mobile application (Flutter) for schedule management by integrating new functional modules.
- Integrated seamless client-server communication by connecting the application to a PHP backend via REST APIs.
- Collaborated and managed structured code within a team using GitLab (versioning and ticketing).

Developer (Integration & ERP) | MAVISION, Tunis

January 2025 – July 2025

- Developed and integrated complex business applications (MS Dynamics 365 Business Central, AL, Web Services, Flask, and Flutter Web).
- Designed critical ERP features to optimize enterprise resource planning and management.
- Created responsive and ergonomic web interfaces (Flutter), resulting in a measured 40% improvement in user experience (UX).

EDUCATION

Software Engineering Degree

Sept. 2020 – Oct. 2025

Ecole Sup rieure Priv e d'Ing nierie et de Technologies (ESPRIT), Tunis
